Positive About Down Syndrome

CELEBRATING WDSD'26

with DSUK Down Syndrome UK

ON 21 MARCH, WE'RE CELEBRATING WORLD DOWN SYNDROME DAY

Down syndrome is a genetic condition caused by an extra copy of chromosome 21.

World Down Syndrome Day is a time to celebrate individuals with Down syndrome as valued members of our families, schools and communities.

WHY 21 MARCH?

The date (21/3) represents the three copies of chromosome 21 that cause Down syndrome.

AT OUR SCHOOL, WE BELIEVE EVERYONE BELONGS.

WE'RE CELEBRATING WORLD DOWN SYNDROME DAY TO:

- LEARN ABOUT DIFFERENCE
- CELEBRATE INDIVIDUALITY
- SHOW KINDNESS AND RESPECT
- MAKE SURE EVERYONE FEELS WELCOME

We all learn, grow and communicate in different ways – and that's something to celebrate.

World Down Syndrome Day reminds us that understanding, patience and kindness help everyone feel safe, valued and included.
